

What Is an Egg?

What is an egg?  
It's a special place.  
It's warm and it's safe.  
It's a cosy space.

What is an egg?  
It's a place to start  
Growing bones and a beak  
And feathers and a heart.

What is an egg?  
It's a place to grow  
For a chick and a duck  
And an owl and a crow.

What is an egg?  
It's a place to begin  
For all sorts of birds;  
For rooster and hen.
