

RISK ASSESSMENT HATCHING FOR SCHOOLS

The following Risk Assessment Form is provided only as a template and guide

Events/School Name: _____	Date: _____
I have read and understood Bowland Farm's Risk Assessment	
Teacher's Name _____	Signature: _____

Potential Hazard	At Risk	Risk Rating	Control Measure
Possible Injuries	Adults and children	Low	There is no risk of injury to the children by the chicks. They are unable to injure by pecking or scratching.
Animals escaping	Adults, Children	Low	All animals safely secured in appropriate housing.
Virus or germs from animals	Adults and Children	Low	<p>Teachers/staff and children are all advised to keep fingers away from their mouths until they have finished the session and washed their hands.</p> <p>We require all staff to supervise all children's hand washing immediately after petting sessions with soap and drying facilities (hands must be cleaned and dried properly). All doors /entrances to the washing facilities to be opened by a member of staff who has not been in contact with the animals.</p> <p>Teachers are advised to read health and safety executive information on preventing and controlling (ill health from animal contact at visitor attractions and other related material before visit). All staff taking part advised to read the health and safety links on Bowland Farm website before visit.</p>

Allergies	Adults and Children	Low	Teachers/staff to be aware and responsible for any allergies of anyone handling and in contact with the chicks.
Electrical equipment	Adults and Children	low	All our equipment is low wattage and pat tested.
